## Best Photo Bag: Vanguard Up-Rise, series

The Up-Rise series comes in five solutions and breaks the mold of camera bag standards with its ability to expand in size to accommodate your changing lens and gear needs. Every Up-Rise model expands with one easy zipper motion and shrinks back down when you don't need the room. Up-Rise bags have a removable rain cover, multiple pockets for extra memory cards and lens caps as well as an orange interior, making it easy to spot loose gear.
